4. Site Area

What is the site area?	<input type="text" value="22.00"/>
Scale	<input type="text" value="sq.metres"/>

Does your proposal involve the construction of a new building which would result in the loss or gain of public open space?

Yes No

5. Description of the Proposal

Please describe the proposed development including any change of use

This project proposal is for the erection of a new external lift with a link bridge to the existing building.

The new lift is proposed to provide level access for wheelchair users and the ambulant disabled to both the ground floor and first floor from the car park of the existing Deiniol building.

The existing building is relatively compact, and there is insufficient space within it to accommodate the lift without compromising the existing accommodation. Therefore, and to connect to the lower car park level, the lift will be within a new building element. It will connect to the car park level through a secure entrance lobby, and to the ground and first floors through a 'link' structure and new openings formed in the existing external wall.

The new lift will be a complementary and sympathetic addition to the existing building, replicating the palette of external materials of the existing building.

Has the work or change of use already started?

Yes No

6. Existing Use

Please describe the current use of the site

This scheme has been developed Bangor University's Estates Management development plan to refurbish an existing research building on Deiniol Street for medical education facilities, adjacent to their main campus. This facility provides a purposely designed 'Anatomy Teaching Space' with all the specifically required arrangement details. Given the nature of the 'Anatomy Teaching Space', access to the ground floor facility for staff and students controlled through a contained air lock, with lockers and a changing area. There is also a 'Tea Room' up on the first floor to reduce the risk of contamination. On the first floor of the scheme there is another lockers and changing area adjacent to the 'Clinical Skills Room' which teaches practical patient consultation and examination skills.

Is the site currently vacant? Yes No

Does the proposal involve any of the following?

Land which is known or suspected to be contaminated for all or part of the site Yes No

A proposed use that would be particularly vulnerable to the presence of contamination Yes No

Application advice

If you have said Yes to any of the above, you will need to submit an appropriate contamination assessment.

Does your proposal involve the construction of a new building? Yes No

If Yes, please complete the following information regarding the element of the site area which is in previously developed land or greenfield land

Type	Area of land (ha) proposed for new development
Previously developed land	0.01

7. Materials

Does the proposed development require any materials to be used in the build? Yes No

Please provide a description of existing and proposed materials and finishes to be used in the build (including type, colour and name for each material):

Walls	
Description of existing materials and finishes (optional):	Brick and off white render
Description of proposed materials and finishes:	Brick and off white render to match existing

Windows	
Description of existing materials and finishes (optional):	Double glazing with grey powder coated aluminium frames
Description of proposed materials and finishes:	Double glazed curtain walling with grey powder coated aluminium frames to match existing. With grey aluminium infill panels

Doors	
Description of existing materials and finishes (optional):	Dark grey powder coated aluminium doors
Description of proposed materials and finishes:	Dark grey powder coated aluminium doors to match existing, with vision panels

Roof

8. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle or pedestrian access proposed to or from the public highway? Yes No

Are there any new public roads to be provided within the site? Yes No

Are there any new public rights of way to be provided within or adjacent to the site? Yes No

Do the proposals require any diversions/extinguishments and/or creation of rights of way? Yes No

Please show details of any existing or proposed rights of way on or adjacent to the site, as well as any alterations to pedestrian and vehicle access, on your plans or drawings.

9. Vehicle Parking

Is vehicle parking relevant to this proposal? Yes No

10. Trees and Hedges

Are there trees or hedges on the proposed development site? Yes No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? Yes No

If Yes to either or both of the above, you will need to provide a full tree survey with accompanying plan before your application can be determined. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'

11. Assessment of Flood Risk

Is the site within an area at risk of flooding? Yes No

Refer to the Welsh Government's Development Advice Maps website.

If the proposed development is within an area at risk of flooding you will need to consider whether it is appropriate to submit a flood consequences assessment. Refer to Section 6 and 7 and Appendix 1 of Technical Advice Note 15: Development and Flood Risk.

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)? Yes No

Will the proposal increase the flood risk elsewhere? Yes No

From 7 January 2019, all new developments of more than 1 dwelling house or where the construction area is 100 square metres or more, require Sustainable Drainage Systems (SuDS) for surface water designed and built in accordance with the Welsh Ministers' Statutory SuDS Standards. SuDS Schemes must be approved by your local authority acting in its SuDS Approving Body (SAB) role. Please contact your local authority for details of how to apply.

How will surface water be disposed of?

- Sustainable drainage system
- Existing water course
- Soakaway
- Main sewer
- Pond/lake

12. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

12. Biodiversity and Geological Conservation

Having referred to the help text, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?
